

Human Heart & Brain

Knowledge Bank Integrator : Sanjay Moreshwar Bapat

What is the weight of your heart?
What is the weight of your brain?
How many neurons in your brain?
How many white cells are there per drop of blood?
Your salivary glands produce how many cups of saliva a day?

We are sharing 5 examples of how we can all come together (from any country) to make an
Ideal village
Ideal hostel for tribals
Ideal hostel for nomadics
Ideal hostel for differently abled
Ideal blood bank

Sponsor banner

All humans have heart and brain.

Heart

Weight of human heart : 200–450 gm.

Say approximately 300 g.

% Human heart of total body weight : 0.3% of the total mass

Brain

Weight of brain : 1300 to 1400 gms

Average brain weight of the adult male was 1336 gram;

Average brain weight of the adult female 1198 gram.

With increasing age, brain weight decreases by 2 to 3 grams.

% brain of total body weight (150 pound human) = 2%

By the time one is six years old, brain is already 90 % of the size of adult.

All of us are billionaires in terms of number of neurons in the brain

Average number of neurons in the brain 86 billion to 100 billion

In money terms, most of us are not billionaires but in neurons in the brain, all living humans is 80 billion plus. (Its neurons and not Rupees, dollars, pounds, yen...)

Brain weight of

A lion : 240 gms, A tiger : 263.5 gms, A horse : 532 gms , An elephant : 4783 gms,

A bottle nosed dolphin : 1,500 - 1,600 gms

Blood

Just one drop of blood contains about 10,000 white blood cells (ranges between 7000 to 25000) and 250,000 platelets.

Saliva

Your salivary glands produce two to six cups of (0.5-1.5 litres) of saliva a day. Six cups of saliva would come close to filling a big, two-litre (67.6) ounce soda bottle!

5 global case studies

Let us make global case studies

All humans have heart and brain. Use it to encourage volunteering, donations, writing in your newspapers, websites, blogs, facebook, whatsapp group...and be an integral part of development of below five global case studies.

- 1 Kokanipada : Global example of village development
- 2 Bhinar : Global example of hostel for tribal students
- 3 MBA Foundation : Global example of hostel for differently abled
- 4 Yamgarwadi school : Global example of education for nomadic students
- 5 Kai Wamanrao Oka Raktapedhi : Global example of a blood bank

Satisfaction Award

Please remember that there are more than 1 billion citizens in this world who earn less than 1 USD a day.

The 2008 World Bank research indicates that 1.4 billion people in the developing world were living below \$1.25 a day in the year 2005.

But we know people like number 1. So many times on CSRidentity.com, you will read that more than 1 billion citizens (live) below \$1 poverty line.

Of course, we think there are two types of poverty lines.

1) Economic poverty line and

2) Mental poverty line.

We are sharing here statistics and mentioning economic poverty line.

If 1.4 billion citizens above the poverty line help 1.4 billion citizens come out of Below the poverty line numbers, then the world will be a much better place to live & leave.

So it is our request to those who can afford to donate at least \$ 1.25 per day to give this gift and lift 1 person above the poverty line. And yes, you get satisfaction in return gift and it is invaluable satisfaction.

And please remember that USD rate changes quite often & we are mentioning 1.25 USD as an example. (e.g. on 22.09.2016 1 USD = Rs 66.8869 for India. On any day or at any time, the rate may change).

Also, each country has a poverty line according to its conditions and what is required to know are two things

1) your country's poverty line 2) your country's Purchasing Power Parity (PPP).

Yes, like many people in the world, we also love to meet citizens who are rich financially or politicians who rule countries, but remember it gives great satisfaction to meet below the poverty line person or family and it will give us great satisfaction if anyone (just anyone) takes 1 person above the poverty line.

Unfortunately, most people think economic prosperity with social prosperity go hand in hand. For us development of humans & nations was important. That is why we have named our Not for profit as Developed Nation Network Trust.

World over, people know they don't live for thousands of years and we urge people in the world to remember that no one takes any money or house or property or just anything when they leave this world.

Do help others in your lifetime or through a registered WILL and enjoy the satisfaction.

CSRIidentity.com shares Social issues, 193 UN member countries, 2 SARs, Non UN member countries and islands, 5 Oceans, 7 continents, 1 world, 1 universe, stakeholders like governments, NGOs, corporates, funding agencies, philanthropists, scientists, rivers, doctors, hospitals, Cas, helplines, religious & historical locations, people & locations you must know...

CSRIidentity.com is keen to enhance the General Knowledge of people across the world and need content partners / sponsors
Instead of Integrator : Sanjay Moreshwar Bapat.

We will put

Content partner : Name of content provider. Image / banner of the sponsor will be on the first page with due link to sponsor website.

Image / banner of the content partner will be shared at the end.
